Why are you a healthcare recruiter?

I've always been passionate about helping people. To me being a recruiter isn't just about filling open job spots. Recruiting is about finding the right fit for both the candidate and client. Recruiting is about being an advocate, maintaining a positive and objective attitude in the face of challenging situations. I am a recruiter because I genuinely feel happy when I'm given the opportunity to play a small part in making a difference in peoples lives.

Brief description of your area of responsibility: While supervising the recruitment team, I am also responsible for the day to day recruiting of Physical, Speech and Occupational therapists to fill our open positions in a variety of settings. I am also the sole point of contact for all outside vendors in regards to Permanent and Travel Contracts. So if you or someone you know is looking for a job as a Physical, Occupational or Speech Therapist – give me a call!

Why should people consider working with Burger Rehabilitation?

Simply put Burger's commitment is – *"To make a POSITIVE difference in the lives of our patients, their families, our staff and the community at large."* The leadership team at Burger Rehabilitation truly cares about the lives of their employees, staff and community. I'm proud to come to work every day and do the best I can to further the purpose of making a positive difference.

Hobbies? Favorite Color? Favorite Quote?

I love spending time with my family doing art projects, having picnics in the park and big family dinners. My favorite colors can all be found in a peacock feather – purple, green, blue and brown. My favorite quote is by Theodore Roosevelt, "Do what you can, with what you have, where you are."

Making a positive difference!
